

## **October 2017 New Features and Updates**

### **HMH Teacher Central**

Version 1.1.6

#### **Updates**

##### **Home Screen**

- Sign out button no longer needs to be clicked directly on the text in order to exit.

##### **Digital Teacher's Edition**

- *System 44* California Digital Teacher's Edition no longer loads blank pages for students only enrolled in *System 44*.
- All images load after clicking Get Resources in the Digital Teacher's Edition in Internet Explorer 11.
- The collapse button in the Digital Teacher's Edition now functions correctly in Internet Explorer 11 when viewing Anchor Videos in full screen mode.

##### **Class Management**

- Cancel button now functions when adding a class in the Class Profile.
- Unlicensed HMH Teacher Central products no longer appear on the Manage Applications menu.
- Checkboxes now appear on the enrollment screen after enrolling students using last available California Literacy license.

##### **Teacher Tools**

- Partially graded activities no longer show the QuickWrite lightning bolt on the Assignment Board.
- Teachers may now assign Workshop Assessment tests to California Literacy *System 44* Next Generation stand-alone classes.
- Flightboard timer no longer goes too fast on teacher's side if teacher click display to class a second time during projection.

##### **Resources**

- Resources section now contains *System 44* Next Generation resources.

##### **Data & Reports**

- Enhancements and report descriptions have been added to *System 44* Next Generation reports.

### **Product Controls**

- Constructed response and extended response may now be turned off in product controls.
- Teachers may now edit *READ 180* Universal product setting after using last available California Literacy license.
- *READ 180* Universal product controls now display properly after adding *READ 180* Universal to the class's managed applications, then going directly to Edit Product Settings.

### **HMH Student Central**

Version 1.1.3

#### **Updates**

##### **Home Screen**

- Sign out button no longer needs to be clicked directly on the text in order to exit.

### **Student Achievement Manager (SAM)**

Version 1.1.1

#### **Update**

- Classes with duplicate names in SAM now display student data for both classes on the Next Generation Dashboards.

### **SAM Central**

Version 2.6.1

#### **Update**

- SAM Central now shows students enrolled in *iRead* as well as *Do The Math*.

## ***READ 180 Universal***

Version 1.1.3

### **Updates**

#### **Student App**

- Closed-captioning no longer skips the first part of the text in the Writing Zone Informative Writing section.
- Students no longer receive an error message when clicking on certain words in the Fluency Zone.
- Various audio and visual improvements.

## ***English 3D***

Version 2.6.1

### **Updates**

#### **Assessments**

- Product controls for *English 3D* assessments set at the class level now display the correct setting at the student level.

## ***rSkills College & Career***

Version 2.6.3

### **Updates**

- Users score no longer displays as “undefined%” for the onscreen version of the Student Progress Report.
- Multiple Meanings skill no longer displays under the Comprehension skill set in the Student Skills Report and Student Progress Report.

## ***System 44 Next Generation***

Version 2.6.3

### **Updates**

- *System 44 Next Generation Results Summary Report* now displays the Median Session Time instead of the median of the total time on the software.
